STUDENT INFORMATION SHEET

Please fill this out today and return to me.

Name ______________________________

Loyola Personal identification number (not social security no.) __________________________

You may also have been assigned a "substitute" social security number, but that’s not the right number either; these substitute social security numbers seem to generally start with one or more 9’s, whereas the only Loyola PIDs I have seen so far start with 0. The Loyola PID appears in places like your tuition bill and transcript; it will probably appear prefixed by the letter “P”.

Full Electronic mail address (preferably lower case) _________________________________

Use the shortest equivalent form, e.g., johndoe@cs.luc.edu instead of johndoe@math.luc.edu, or johndoe@luc.edu instead of johndoe@wpo.it.luc.edu. (Note that johndoe@cs.luc.edu is a different place than johndoe@luc.edu, though you could make one forward to the other.)

Remember the exact form of the email address submitted here, because The entire email address will be used as your “User Id” (case sensitive) for accessing the web page for this course. The last nine digits of your personal identification number will be used as your “Password”. (One of the capabilities on the web site is to have a complete copy of your grade record emailed to yourself at any time.)

The email addresses I get will also be put on a mailing list for emergency announcements and answering questions of general interest to the class. You are expected to read your email periodically. I don’t care whether you give a Loyola email address or something else as long as you will read it regularly. Also, it should be the address from which you will send email to me (to ensure that my spam filter doesn’t quarantine your email); if you have additional addresses from which you anticipating sending email to me, please list them here:
